The figure displays two protein analysis panels. The top panel shows a protein of 60 residues with a complex secondary structure (multiple alpha-helices and beta-strands) and high disorder confidence (indicated by a red bar). The bottom panel shows a shorter protein of 70 residues with a simpler secondary structure (fewer alpha-helices) and lower disorder confidence (indicated by a green bar).

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix

 Beta strand
