Figure 1: Protein structure and disorder analysis of the human protein. The figure displays four segments of the protein sequence (1-60, 70-120, 130-180, and 190-230) with corresponding secondary structure predictions (SS), confidence scores, and disorder analysis. The protein is shown as a blue ribbon structure with green alpha-helices and red beta-strands. The disorder analysis includes a 'Disorder' track with question marks indicating predicted disorder and a 'Disorder confidence' track with a color scale from blue (low confidence) to red (high confidence).

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix

 Beta strand
