Figure 1: Sequence and structural analysis of the protein. The figure displays three segments of the protein sequence (1-60, 70-120, and 130-180) with corresponding secondary structure predictions (SS), confidence scores, disorder predictions, and disorder confidence scores. The sequence is color-coded by amino acid type. Secondary structure is shown as green helices and blue arrows. Confidence is shown as a red and yellow bar. Disorder is shown as a blue bar. Disorder confidence is shown as a blue bar with green and yellow segments.
