Figure 1: Structural analysis of the protein sequence. The figure displays four segments of the protein structure, each with a sequence, secondary structure, and confidence scores. The segments are color-coded by confidence: red for high, yellow for medium, and green for low. The segments are labeled 1, 2, 3, and 4. Segment 1 (residues 1-60) shows a high-confidence structure with a blue arrow indicating a loop. Segment 2 (residues 70-120) shows a high-confidence structure with a blue arrow indicating a loop. Segment 3 (residues 130-180) shows a high-confidence structure with a blue arrow indicating a loop. Segment 4 (residues 190-230) shows a high-confidence structure with a blue arrow indicating a loop.
