Figure 1: Structural analysis of the protein sequence. The figure displays four segments of the protein sequence (1-60, 70-120, 130-180, and 190-230) with corresponding secondary structure predictions (SS), confidence scores, and disorder analysis. The sequence is color-coded by amino acid type. Secondary structure is shown as green helices and blue arrows. Confidence is shown as a red bar. Disorder is shown as a blue bar. The disorder analysis includes a 'Disorder' bar and a 'Disorder confidence' bar. The disorder analysis shows regions of high confidence (red) and low confidence (blue). The disorder analysis also includes a 'Disorder' bar and a 'Disorder confidence' bar.

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix

 Beta strand
