Protein structure and disorder analysis for the protein sequence. The figure shows three segments of the protein: residues 1-60, 70-120, and 130-160. Each segment displays the amino acid sequence, a secondary structure prediction (alpha-helices in green), a solvent accessibility plot (red line), a disorder prediction (blue line with question marks), and a confidence score (colored bar). A blue arrow indicates a disordered region between residues 70 and 80.

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix

 Beta strand
