Figure 1: Structural analysis of the protein sequence. The figure displays three segments of the protein structure, each with its corresponding sequence, secondary structure, and disorder confidence. The first segment (residues 1-60) shows a series of alpha-helices and loops. The second segment (residues 70-120) shows a series of alpha-helices and loops. The third segment (residues 130-180) shows a series of alpha-helices and loops. The fourth segment (residues 190-200) shows a short alpha-helix. The disorder confidence is indicated by a color scale from red (high confidence) to green (low confidence).

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix

 Beta strand
