Protein structure analysis of two protein segments. The top segment (residues 1-60) shows a sequence with several alpha-helices and beta-strands. The bottom segment (residues 70-120) shows a sequence with several alpha-helices and beta-strands. The analysis includes secondary structure, confidence, disorder, and disorder confidence.

Segment 1 (Residues 1-60):

- Sequence:** M K L T I I R L E K F S D Q D R I D L Q K I W P E Y S P S S L Q V D D N H R I Y A A R F N E R L L A A V R V T L S G T E
- Secondary structure:** Alpha-helices (green) and beta-strands (blue) are shown.
- SS confidence:** A bar chart showing confidence levels for each residue.
- Disorder:** A bar chart showing disorder levels for each residue.
- Disorder confidence:** A bar chart showing confidence levels for each residue.

Segment 2 (Residues 70-120):

- Sequence:** G A L D S L R V R E V T R R R G V G Q Y L L E E V L R N N P G V S C W W M A D A G V E D R G V M T A F M Q A L G F T A Q
- Secondary structure:** Alpha-helices (green) and beta-strands (blue) are shown.
- SS confidence:** A bar chart showing confidence levels for each residue.
- Disorder:** A bar chart showing disorder levels for each residue.
- Disorder confidence:** A bar chart showing confidence levels for each residue.

Segment 3 (Residues 1-10):

- Sequence:** Q G G W E K C
- Secondary structure:** A beta-strand (blue) is shown.
- SS confidence:** A bar chart showing confidence levels for each residue.
- Disorder:** A bar chart showing disorder levels for each residue.
- Disorder confidence:** A bar chart showing confidence levels for each residue.

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix

 Beta strand
