Figure 1 displays the protein structure and disorder analysis of the protein. The figure shows three segments of the protein sequence (1-60, 70-120, and 130-140) with their corresponding secondary structure (SS) and disorder confidence. The first segment (1-60) shows a long alpha-helix (green) and a long beta-strand (blue). The second segment (70-120) shows a long alpha-helix (green) and a long beta-strand (blue). The third segment (130-140) shows a short alpha-helix (green) and a short beta-strand (blue). The disorder confidence is shown as a bar chart below the sequence, with red indicating high confidence and green indicating low confidence.

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix

 Beta strand
