Figure 1: Structural analysis of the protein sequence. The figure displays four segments of the protein sequence (1-60, 70-120, 130-180, and 190-220) with corresponding secondary structure predictions (SS), confidence scores, disorder predictions, and disorder confidence scores. The protein is shown as a ribbon diagram with green alpha-helices and blue beta-strands. The SS confidence is shown as a bar chart with red (high) and green (low) segments. Disorder is indicated by question marks on a scale from 0 to 100. Disorder confidence is shown as a bar chart with red (high) and green (low) segments.

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix
