Figure 1: Structural analysis of the protein sequence. The figure displays four segments of the protein sequence (1-60, 70-120, 130-180, and 190-220) with corresponding secondary structure predictions (SS), confidence scores, disorder predictions, and disorder confidence scores. The sequences are color-coded by amino acid type. Secondary structure is shown as green helices and blue arrows. Confidence is shown as a red bar. Disorder is shown as a grey bar with question marks. Disorder confidence is shown as a blue bar.

Confidence Key
