Figure 1 shows the protein structure and disorder analysis of the human protein. The figure displays three segments of the protein sequence (1-60, 70-120, and 130-180) with corresponding secondary structure predictions (SS), confidence scores, and disorder analysis. The sequence is color-coded by amino acid type. Secondary structure is shown as green helices and blue arrows. Disorder is indicated by red and orange bars. Confidence scores are shown as green and yellow bars.

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix

 Beta strand
