Protein structure and disorder analysis for two protein segments. The top segment (residues 1-60) shows a complex structure with multiple alpha-helices and beta-strands, with a high confidence score (SS confidence) and a high disorder score (Disorder confidence). The bottom segment (residues 70-90) shows a simpler structure with a single alpha-helix and a lower confidence score (SS confidence) and a lower disorder score (Disorder confidence).

Confidence Key

High(9)  Low (0)

? Disordered

 Alpha helix

 Beta strand
